A journey through a crisis and the lessons learned

- Disruption and resurgence in China...

A photograph of a car body on an assembly line, overlaid with a semi-transparent dark grey rectangle. The car is white and is positioned on a yellow floor. The background shows a factory setting with overhead lights and structural beams. The text "Coordinating global shutdowns..." is centered over the image in white font.

Coordinating global shutdowns...

Supporting the relief effort and sourcing PPE...

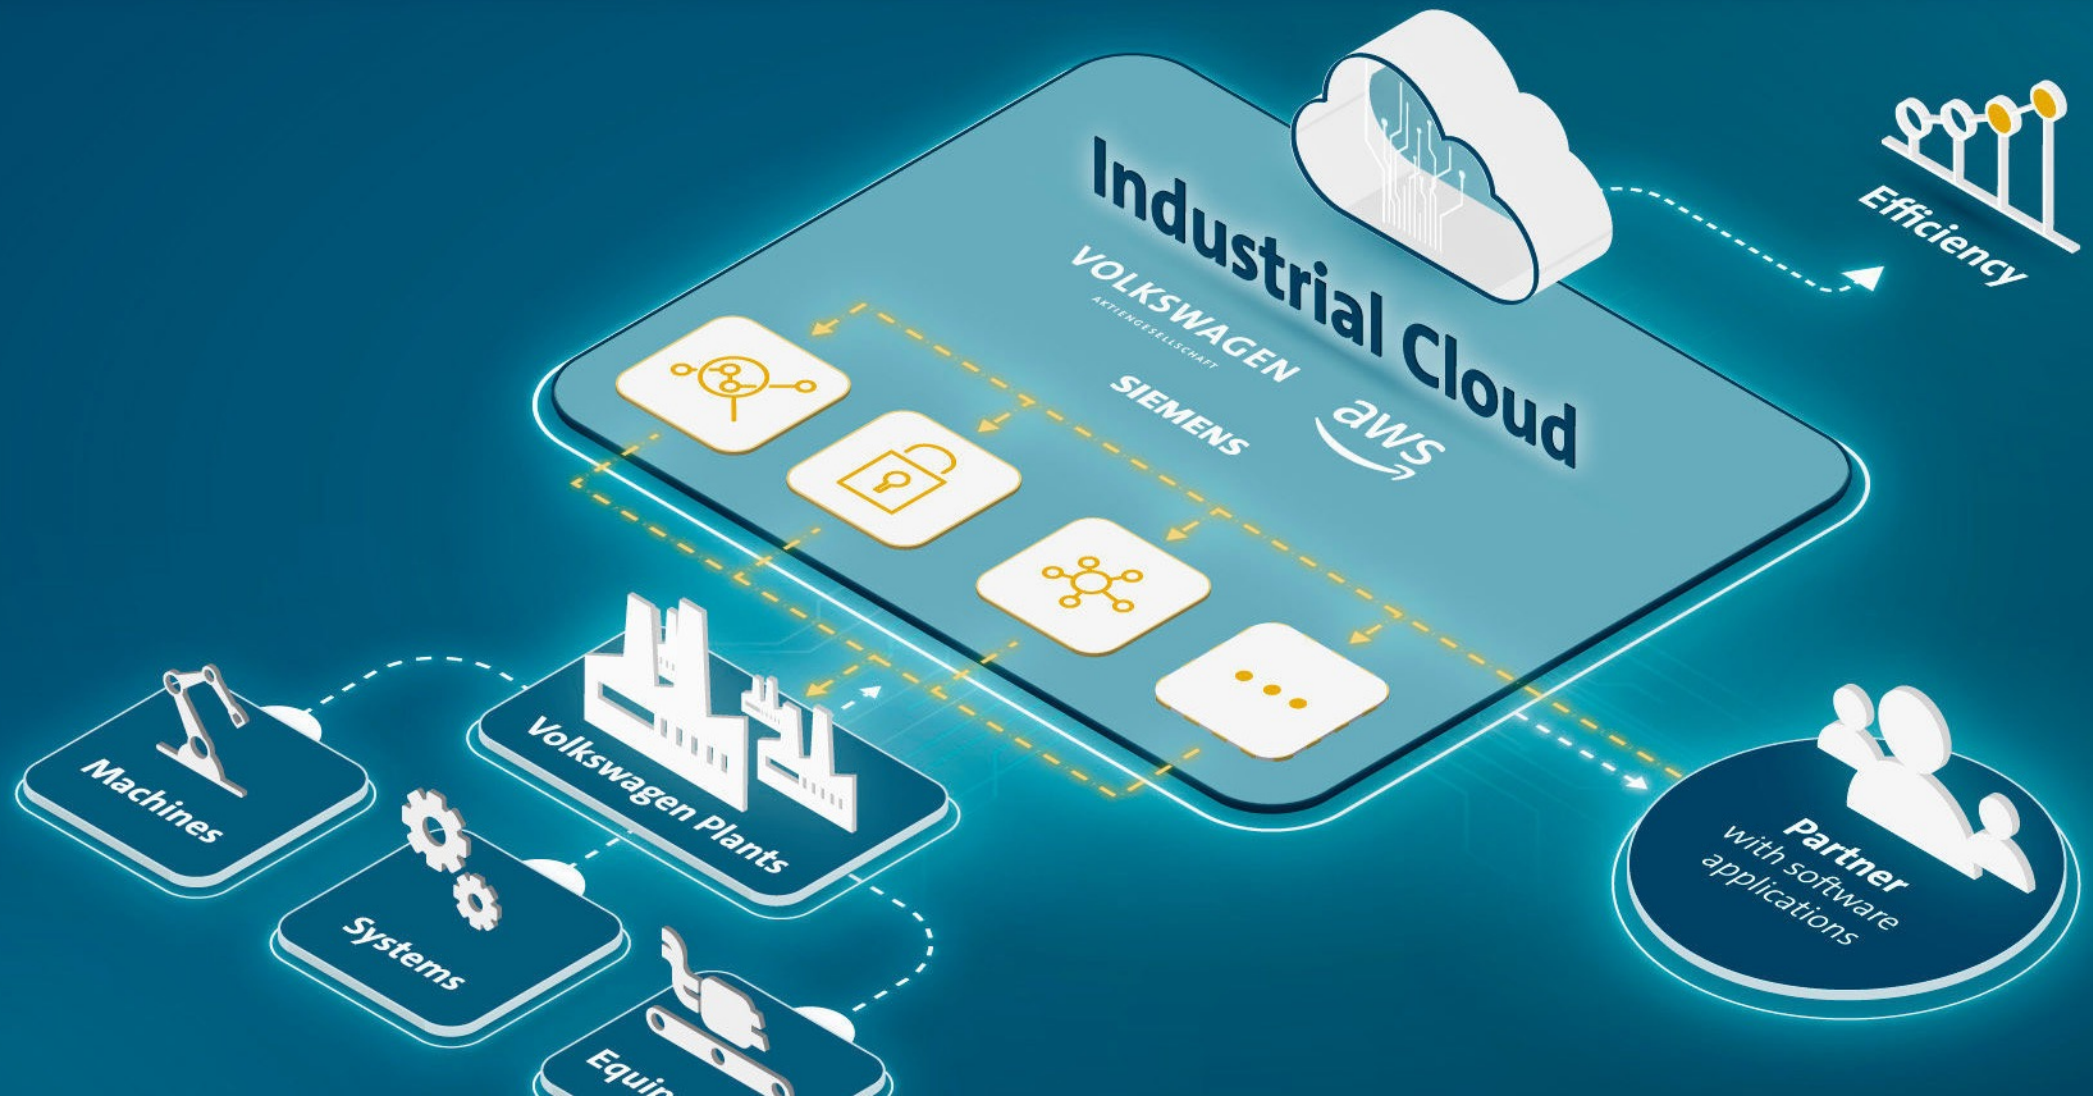

Restart and recovery...

The image features a teal hatchback car, likely a Volkswagen Golf GTI, presented in two views: a top-down perspective at the top and a side profile view at the bottom. The car is set against a dark teal background with a grid pattern. The text "Beyond the crisis: electrification.." is centered in white, sans-serif font, overlapping the two car views.

Beyond the crisis: electrification..

Digitalising the supply chain...

Fuelled by LNG
